

StormExx[®] CLEAN Catch Basin Filter

- Captures trash, sediment and soluble, invisible pollutants
- Fits any existing storm drain system – round or rectangular

StormExx Advantages

- Easy to install, maintain and replace
- Treats stormwater at the street/inlet level
- Patented multistage filtration system
- Optional sample port is available
- Option for double units for qualifying inlets
- Overflow bypass of 500+ gmp*

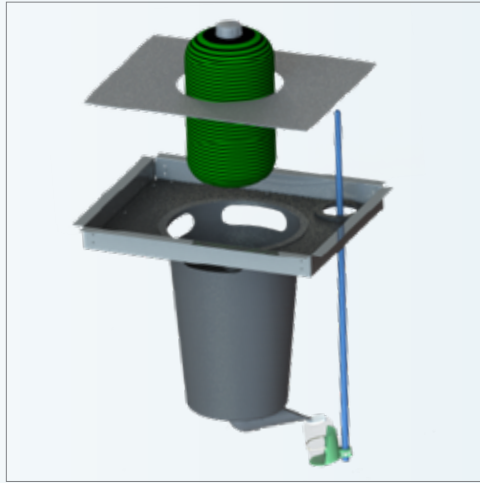

The StormExx CLEAN Trash Capture model features a mesh screen designed to capture trash greater than 5mm, and has been approved as a Stormwater Full Trash Capture Device by the California EPA State Water Resources Control Board.

StormExx® CLEAN Catch Basin Filter

StormExx uses similar EnviroSoxx® filtering media and additives to treat stormwater in a replaceable cartridge for under the grate.

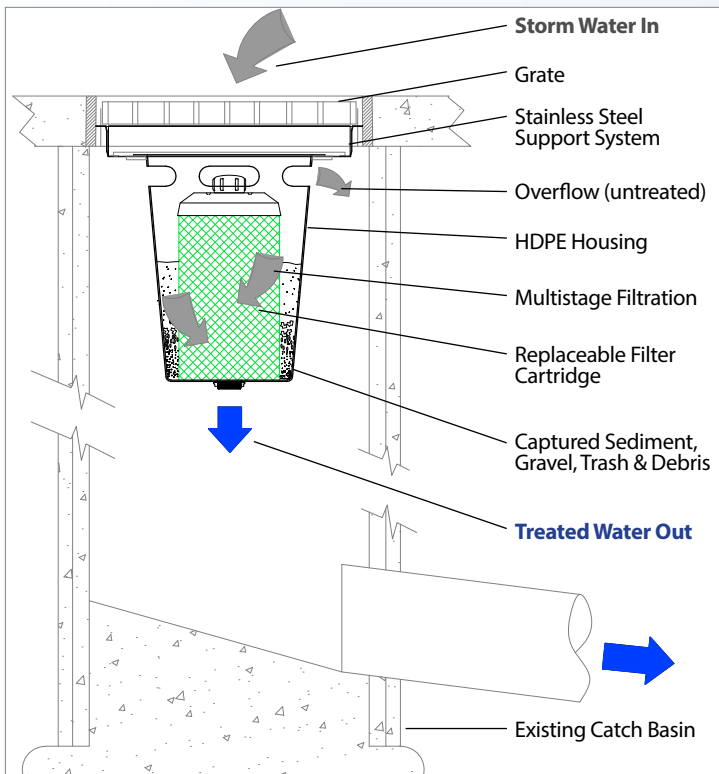

StormExx fits any existing storm drain, and features easy installation, maintenance, and replacement. Optional sample port is available.

StormExx collects large amounts of sediment and debris in an easy to replace cartridge.
